

FUN LEARNING SOFTWARE

LOADING INSTRUCTIONS

APPLE II, APPLE II+, APPLE IIe, and
APPLE IIc, II GS

System Requirements: One of the computers
above with a minimum of 48K memory, a disk
drive, and color monitor:

1. Insert the Fun Learning disk into the drive.
2. Turn on the monitor and computer.

COMMODORE 64/128

System Requirements: Commodore 64
computer, a disk drive, and color monitor. For
Commodore 128 users, put computer into
mode 64.

1. Place the Fun Learning disk into the disk
drive.
2. Turn on the computer, monitor, and disk
drive.
3. When READY appears on the screen, type
LOAD "MM" , 8 and press RETURN.
4. When READY appears on the screen, type
RUN and press RETURN.

IBM, PC, XT, PCjr (MS DOS COMPATIBLES)

System Requirements: An IBM PC, XT or PCjr
with at least 128K of memory, a color card,
color monitor, and IBM DOS 2.0, 2.1, or 3.0.
IBM PCjr requires Cartridge BASIC. MS DOS
compatible computers require in excess of
128K of memory.

Loading Instructions IBM / MS DOS

Boot MS DOS 2.0 or higher.

Place program disk in drive A.

Type RUNAEC (press "enter" or "return").

Follow screen instructions.

OPERATING INSTRUCTIONS

Fun Learning programs are easy to use and
require minimal keyboard input. All necessary
instructions are built into the programs. The
steps below describe the general procedure
for running a program.

1. Load the disk into your computer's disk
drive as described in the section "Loading
Instructions."
2. After the screen displays the program title,
you will be asked your name. Type your
first name and press the RETURN key.
3. A list of numbered titles will appear. This is
the program menu. Type the lesson number
you want and press the RETURN key. The
titles are abbreviated to eight characters
maximum length.
4. The first lesson item will be displayed. Select
your answer and type an appropriate answer
for the type of question asked, such as: T or
F, the multiple choice letter, or the missing
word(s). If your choice is correct, the letter
or word(s), will appear in the appropriate
answer space. If your choice is incorrect,
the number of "guesses" remaining will de-
crease by one, and you may try again (if
you are allowed more than one guess).
NOTE: If a numerical answer is required,
enter the answer as a word rather than as a
numeral (i.e., "three" not "3").
5. If you are allowed more than one guess,
continue selecting letters until the answer
is complete. Once you've correctly identified
the answer, the next lesson will appear on
the screen and the bar graph on the right
will record your score.
If you can't identify the answer and your
guesses have run out, the computer will
display the correct answer. Press the RETURN
or ENTER key to continue.
6. If you want to leave a lesson before it is
completed, you must be at a point where
the computer is waiting for you to answer a
question. Instead of typing the answer,
press the appropriate key for your computer:

APPLE II: ESC key

COMMODORE: f1 key

IBM/MS DOS: ESC key

7. When you have completed all ten items in
a lesson, your total score will be displayed.
If you have scored fewer than seven correct
answers, the lesson will be repeated. You
can try again to reach the mastery level of
at least seven correct answers.

(OVER)

HOW TO PLAY THE REWARD GAME

When you have completed a lesson, you will be asked to choose whether you want to advance to the game, or go back to the menu to select another lesson. If you choose to play the game, a maze will be displayed. The object of the game is to move your cursor through the maze, striking the colored targets without hitting the walls.

When you strike the colored targets, points will be added to your score. If you hit the walls, points will be subtracted from your score. If you exit the maze from the lower right-hand corner before time runs out, you will receive

bonus points. The number of points added and subtracted is listed at the bottom of the maze.

If your computer has a joystick, play the game by connecting the joystick to port no. 1.

(Use port no. 2 on the Commodore.) Use the joystick to control the cursor's movements up, down, right, and left to hit the targets. If you do not have a joystick, play the game using the appropriate keys for your computer.

To move:	UP	DOWN	RIGHT	LEFT
Use these keys:				
APPLE II	A	Z	→	←
Commodore	A	Z	;	:
IBM	↑	↓	→	←
